

## AMERICAN FOREST &amp; PAPER ASSOCIATION

GROWING WITH AMERICA SINCE 1861

August 29, 2006

Dr. Darren A. Miller  
Manager, Timberlands Wildlife Research  
Weyerhaeuser Company  
Post Office Box 2288  
Columbus, Mississippi 39704

Dear Darren:

I am very pleased to inform you that you have been selected by an independent panel of judges to receive the American Forest & Paper Association's (AF&PA) 2006 Wildlife Stewardship Award. The Wildlife Stewardship Award recognizes significant achievements by wildlife and fisheries biologists or managers working with or for the forest industry that have advanced the science and practice of wildlife management, and the Sustainable Forestry Initiative® (SFI) program's goal of continuous improvement in forest resource management.

Your myriad contributions to the promotion of forest management and wildlife stewardship at multiple levels within the Weyerhaeuser Company, and on behalf of the forest products industry, are impressive. Your leadership skills, strong commitment to sound science, and uncompromising initiative deserve special consideration. I particularly want to commend your commitment and dedication to advance the quality of science and increase the understanding of bats and their conservation on managed forests.

Your achievements will be recognized at the 2006 SFI® Program Annual Conference in Toronto, Ontario, Canada on October 4<sup>th</sup>. Your award will be formally presented at the All-Conference Awards Luncheon. Enclosed is information regarding registration for the conference. If you have any questions about the conference, please contact Amy Doty at (202) 463-5177.

Again, congratulations on this outstanding achievement.

Sincerely yours,

Donna A. Harman  
Senior Vice President  
Policy and Government Affairs

Enclosure
